Parking before and after school

Dear Parents / Carers,

A number of people have communicated their concerns with issues regarding parking before and after school, in particular, dropping off children opposite the school gates or at the main school gate entrance. The winter conditions create hazards, through icy roads and poor visibility. Therefore, I would politely request that when dropping off children, cars are parked next to the school perimeter fencing, off road. This will ensure that the roads are kept free of hazards and enable visibility to be clearer.

I am sure that nobody would want a child to be injured. The police are aware of the issues and will be increasing their monitoring of the area.

Thank you for your cooperation and understanding.

Yours faithfully,

James Shawley
