Parking in front of the school gates

Dear Parents / Carers,

We are noticing that some parents / carers are picking-up or dropping their children off at the school gates or driving into the school grounds to do the same. Please be aware, that we have deliveries, including a minibus with children on-board and children are sometimes walking in and out of the school entrance. In addition, staff are coming and going. By parking at the school gates, visibility is reduced and places others in danger. This is unacceptable and we cannot allow this to continue.

There is ample parking (compared to the majority of schools) around the perimeter of the school fence. If this persists, we will have no viable option but to take a note of vehicle registration plates and inform the police.

Please excuse the tone of this letter, it is not intended to cause any offence as the vast majority of people are considerate towards others. However, the safety of our children, staff and parents/carers is our number-one priority and we cannot make any exceptions for this.

Thank you for your understanding and cooperation.

Best wishes,

James Shawley
