

St Bartholomew's CE Primary School

7th November 2018

Dear Parents/Carers

Maths Meeting

As I am sure you are aware, the way in which maths is taught in schools today is very different from the way most of us learned our own maths skills.

In recognition of your role in helping your child/ren with their mathematical knowledge and understanding we would like to give you the opportunity to come into school to find out for yourselves the methods that we teach and ways in which you can use them to support your child/ren's mathematical calculation and reasoning skills.

To accommodate this, we will be hosting a maths evening where you can visit your child/ren's classrooms and learn at first-hand how they are being taught in the classroom.

We plan to deliver three separate evenings: on addition and subtraction, multiplication and division and fractions, decimals and percentages. The first of these evenings is planned for Wednesday 14th November and will start at 3.30 pm in the school hall. I will introduce the approaches we use before giving each of you time to visit your child/ren's classrooms where you can discover more about the approach being adopted in each year group and talk to the class teachers.

This meeting is an ideal opportunity for you to ask questions and talk to staff. Some of the resources that we use will also be available for you to look at and try. We really hope you will be able to attend this meeting and find out how you can further help your child/ren at home.

Please could you complete the slip below and return it to the school office. We look forward to seeing you and your children on Wednesday 14th November 2018 at the first of these maths meetings.

Yours sincerely

Alice Edwards
KS2 Leader

I/we will/will not be attending the Maths meeting being held on Wednesday 14th November 2018.
